Professional Development & Learning

DRIVE ENGAGEMENT, INCREASE RETENTION, AND ENCOURAGE GROWTH

Competition for talent is higher than ever, making it even more important for your institution to focus on retention and engagement. PeopleAdmin's Professional Development and Learning is a practical solution for planning, tracking, and managing talent—so faculty and staff can focus on growth, not paperwork. This solution personalizes learning, simplifies professional development tracking, drives engagement, and makes learning social. Invest in your employees by offering learning paths that help them move their careers forward. Bring professional development into one centralized platform to make engagement easy.

Personalized Learning

Sync learning with performance evaluations so that you can **pinpoint growth opportunities, fuel targeted learning, and have a greater impact on achievement.** Align learning goals with each faculty or staff member to tailor learning for a truly personalized experience.

Robust Reporting

Easily manage and monitor course attendance and credits with HR oversight. **Dashboards and on-demand reports provide insights** on attendance, budgeting, credentialing, and scheduling, while analysis tools track institution-wide progress.

Motivate Engagement

Motivate learners to interact with content by rewarding them with standards-aligned badges and micro-credentials. **Create professional learning communities and forums to encourage collaboration.** Optional credits, online discussion boards, and content sharing within networks build a motiviating, collaborative environment.

Course Management

Create your own courses or tap into the content you want from the vendors you love– including self-paced and instructor-led courses. Assign or require courses, or build a library of on-demand learning. Plus, combine professional development from all departments and schools into one, easily searchable catalog.

Centralize your professional development and learning for a more effective faculty and staff.

PeopleAdmin's HigherEd Platform

A single system of intelligence connecting your entire campus with innovative solutions, the HigherEd Platform is built to help your institution succeed.

— Robust SaaS platform with out-of-box integrations that connect with systems already in use on your campus.

— Meaningful insights from powerful data analytics tools with visual dashboards.

— Automate and optimize complex, HigherEd specific tasks from hiring and onboarding to growth, retention, and faculty development.

— Power your institution's mission of impacting student outcomes.

— Flexible and customizable modules mean you can digitize every corner of campus.

Marketplace of Connectors

PeopleAdmin's Marketplace of Connectors integrate with the best talent recruitment and management systems serving the HigherEd community.
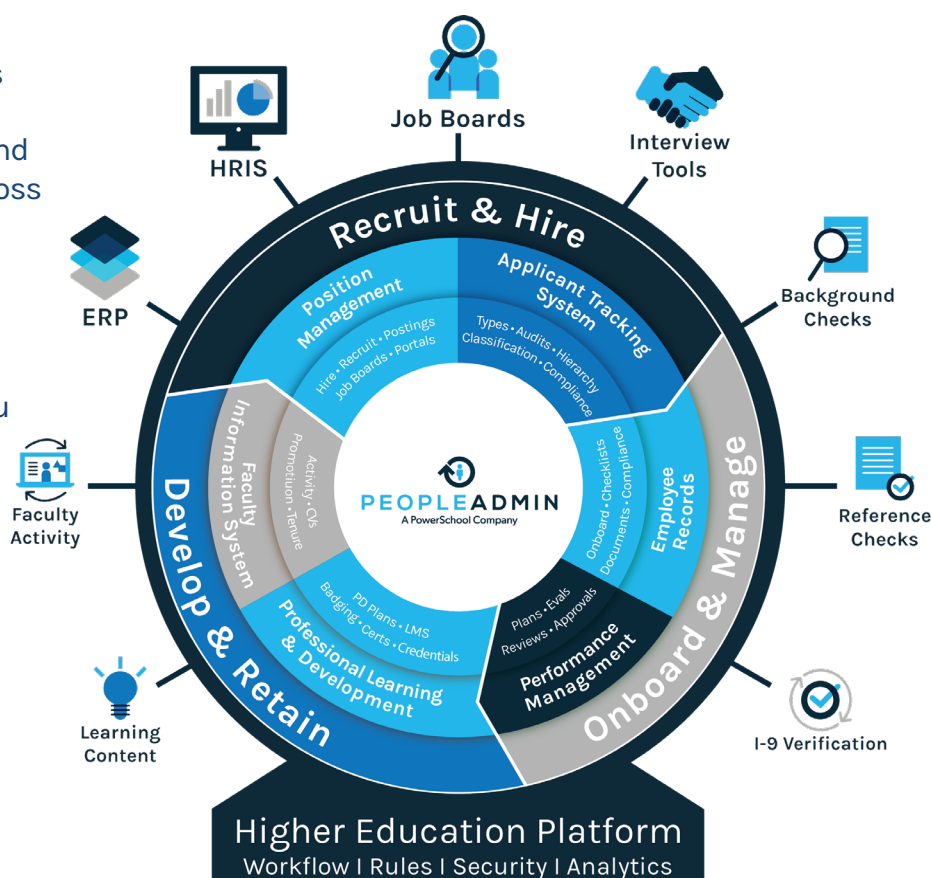

PeopleAdmin connects seamlessly with these partners so information flows between systems, **reducing manual re-entry, shoring up inconsistencies,** and providing a holistic view of analytics across the complete talent ecosystem.

Unified Insights

PeopleAdmin's Unified Insights arms you with the information you need to make better, data-driven decisions.

Interactive, visual dashboards provide near real-time visibility to help navigate EEO compliance, balanced hiring, budget planning, diversity initiatives, faculty and staff retention, and more.

Predictive analytics learn from past trends to help you anticipate and proactively plan for future outcomes to make smarter decisions, faster.
