

# PeopleAdmin Professional Development and Learning

## Deliver tailored learning while driving engagement with PeopleAdmin’s Professional Development and Learning.

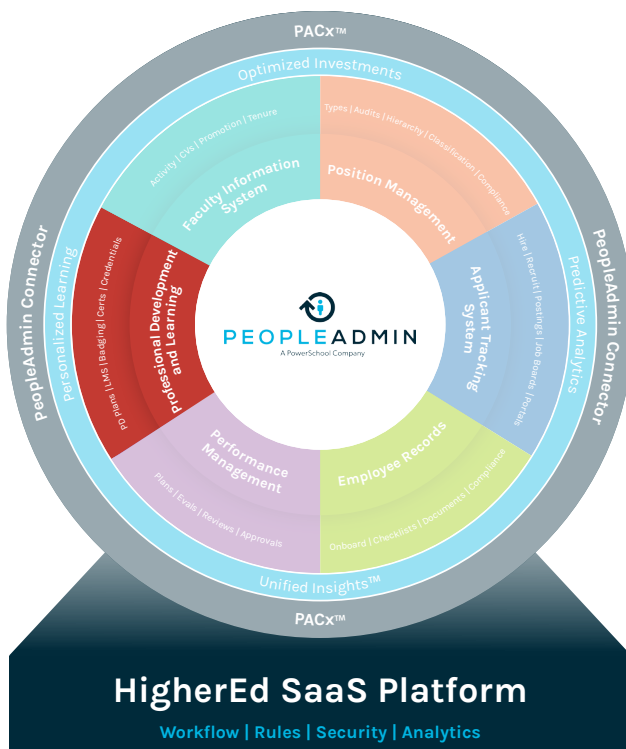

PeopleAdmin’s Professional Development and Learning is a practical solution for planning, tracking, and managing talent—so faculty and staff can focus on growth, not paperwork. Professional Development and Learning personalizes learning, simplifies professional development tracking, drives more learning, and makes learning social.

### Why Consider Professional Development and Learning?

A personalized learning tool ensures all students have access to the same quality of teaching and learning, regardless of needs, location, or any other circumstances.

The platform offers more than professional development:

- Create professional learning communities and forums
- Control and tailor content to align with personalized needs and goals
- Recommend, require, or restrict course options based on the demographics and development needs identified in evaluation results
- Reward your faculty with badges and micro-credentials within an easily searchable intuitive interface

#### Simple

Easy-to-use reporting and detailed transcripts

#### Personalized

Align goals with each faculty member’s needs

#### Specific

PeopleAdmin developed this tool specifically for higher education.

# Drive Learning at Your Institution

## Course Management

Easily manage and monitor course attendance and credits. Create your courses and recommend or require courses for your faculty and staff and build professional development plans based on their profile, goals, or research.

## Course Catalog

Use the premium library to buy the content you want from the vendors you love—including self-paced and instructor-led courses that let you pay as you go. Plus, combine professional development from other departments and schools into one, easily searchable catalog.

## Badges and Micro-Credentialing

Motivate learners to interact with content and earn standards-aligned badges by completing courses curated just for them.

## Robust Reporting

Dashboards and on-demand reports provide insights on attendance, budgeting, credentialing, and scheduling—while analysis tools track institution-wide progress.

## Collaborative Learning

Help faculty and staff meet professional development requirements through collaboration—with optional credits, online discussion boards, and content sharing within networks.

## Sync Learning with Performance Evaluations

Connect professional learning with performance evaluations—so evaluations can pinpoint growth opportunities, fuel targeted learning, and have a greater impact on achievement.
