Faculty Information System

FACULTY-FRIENDLY PROCESSES.
INSTITUTIONAL INSIGHTS.

Reduce administrative burden on faculty with a low-touch solution to collect and organize their academic achievements, education and work history, professional contributions, publications, and research.

When faculty dossiers are up-to-date, grant applications are faster, and promotion and tenure review is streamlined. Plus, cross-campus reporting and analytics help to better manage and promote the institution.

So Easy, Even Faculty Will Use It

This low-touch solution collects and organizes achievements so dossiers stay current. When you free faculty from admin, they can **focus on what matters** and **productivity rises**. So intuitive and easy to use, faculty feel supported by a world-class institution.

Actionable Insights On-Demand

Better **insight into faculty productivity**, research, grants, and publications helps to streamline the promotion and tenure process, adds **transparency to ensure an equitable process**, and gives institutions the complete picture to better promote their academic excellence.

Flexibility Within a Structure

Customized to **meet the unique needs and workflows of each department**, without sacrificing institutional oversight. Reporting rolls up into a **centralized overview** so faculty affairs doesn't have to manually combine multiple reports.

HigherEd Specific

Tailormade for unique faculty needs, from on-demand dossier, biosketches, and CVs, to promotion and tenure review. **Faculty are too important** to an institution for their support to be an afterthought or to be forced into a corporate solution.

“Ditch the paper, review on demand! We're able to be **more efficient and more consistent** in our review process. And it's exciting to have faculty business processes that we can learn from, like visual representations of our tenure review.”

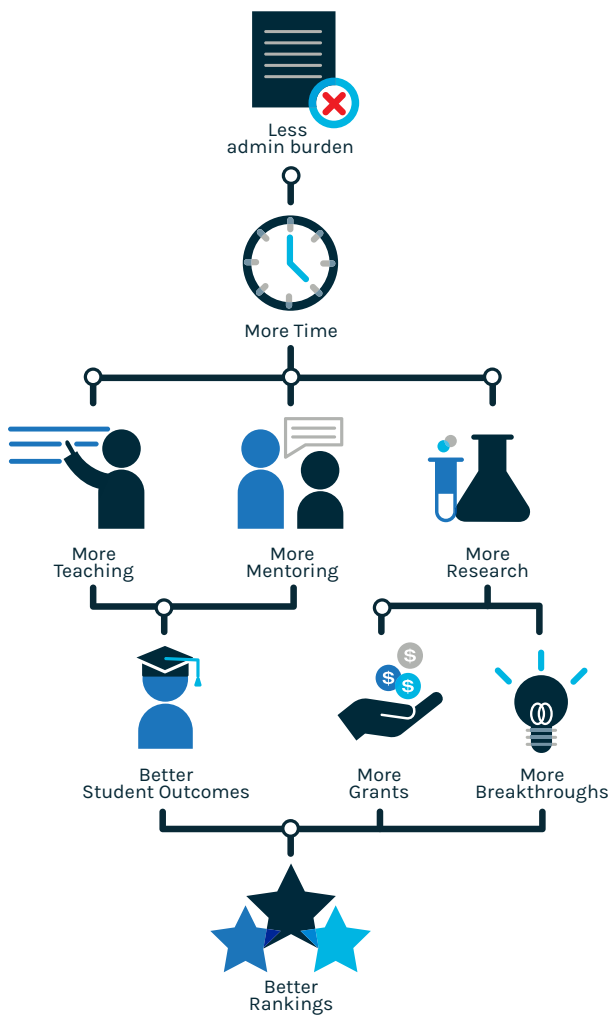

GINGER JURECKA BLAKE

Director of Organizational Development & Training
State University of New York at New Paltz

Promoting Institutional Excellence

When you free faculty from administrative burdens, they can be more productive, spend more time impacting student outcomes, apply for more grants, bring in more funding, and make discoveries that will impact the way we understand the world.

With more academic output, and a streamlined way to capture it campus-wide, your institution can better tell your story.

Key Features

Data Management

Real-time connection with Orcid pulls in data. Faculty can enter other achievements once, and reuse again and again.

Dossier

When faculties' dossier is kept current with easier data management, they can quickly customize CVs and biosketches at the click of a button.

Promotion & Tenure Review

Simplified digital processes make it easier for faculty to prepare and faster for committees to review. Allows customizable workflows, committee management and confidential recommendations.

Equity & Compliance

Robust analytics include metrics around diversity to bring transparency, avoid implicit bias, and help justify decision-making.

Unified Ecosystem

FIS fits into a unified PeopleAdmin solution for a comprehensive single-source-of-truth for faculty and staff recruiting, hiring, onboarding, and development. Plus, a proprietary methodology for adoption ensures success.

>50%

of HigherEd institutions still rely on paper-based activity reporting and promotion processes.

Create a legacy with the last faculty system your institution will ever need.
Bring your faculty processes into a new era.
